This renders are wonderful. We don't have much else to say, because these images speak for themselves. Like a crystal ball, the renders allow us to look into the future and, with that, we can see many things. Because it's not only about imagining the rooms, which are beautiful, but also imagine everything that you will do in them: life, life and more life. That's how we like our homes.

This apartment renovated in 2024 is located on the fourth floor and has 68m². It has two bedrooms, one double, built-in wardrobes, two full bathrooms (one en suite), large living-dining room with access to a balcony and an open and equipped kitchen. In addition, it has double-glazed windows as well as air conditioning. The building dates back to 1936 and does not have an elevator. There is a communal terrace in the building.
