When we have to take the car to go to a home we know that we are going to have a good time, starting with the journey with good music in the background and talking about life. But let's get to the important thing, this beautiful house welcomed us a few days ago with arms wide open and ready to be shown in its best light. I wouldn't really know where to start, but the first thing we did was take a walk around the outside. Wonderful! A pool area on two levels (the second is ideal for the little ones) surrounded by greenery. There is a well, picnic area, orchard... Although the garden is already incredible, when we entered inside we were speechless. There are three floors with a games room, gym, covered parking, DIY workshop... And the rooms, of course, thus forming a super cozy home. See it to believe it. I would love to tell you all the details but it would still go on a little too long.

This 800m<sup>2</sup> property has an outdoor area with a swimming pool, garden, children's area, fronton, barbecue and picnic area. On the ground floor there is covered parking for two cars and motorcycles, a games room, gym and a DIY workshop. The other two floors are distributed with 9 bedrooms, 7 bathrooms, a toilet, hall, living room with fireplace, a second living room, separate kitchen, a study and an office. There is also a pantry and a dog bathtub. It has zoned air conditioning, heating and perimeter alarm system.

You will love it!
