I always say that an apartment has to awaken something in you. An instant crush is very good, but like everything in life, many times you need more. That's why I always try to convey to you what each property produces in me, like this wonderful house. I don't really know where to start, I'll just tell you that walking through the chalet was an adventure of incredible sensations.

This brand new 3-story designer house/chalet located in a large block patio has 135m² built, with a 32m² terrace and is completely renovated, it was completed in March 2024. It has an equipped kitchen integrated into the living-dining room, two bedrooms with dressing room and en-suite bathroom and built-in wardrobes. It has wooden floors, double glazed windows, air conditioning with hot/cold pump and an elevator that connects each floor. The property dates back to 1906. The house is delivered with furniture included.

You will love it!
