Santa Maria de Palautordera

€499,000

I love it when a renovation still preserves the essence of the house. Here, the details allow you to understand the history of these walls. And all of it comes with the comforts we seek in any home—light, nature, a pool, and even a lovely little corner on the terrace for more privacy.

This two-story house has a total built area of 180m², with 160m² of usable space (75m² on the first floor and 85m² on the second floor). On the ground floor, there is a living-dining room with access to the patio, an open and fully equipped kitchen, a full bathroom, and a garden patio with a 10m² pool, as well as a guest room. The first floor features three bedrooms (one with a walk-in closet) and a bathroom. The house is equipped with air conditioning, gas radiator heating, two wood-burning stoves, and wooden double-glazed windows.

You'll love it!
